

Dear Mini-Police Officer,

I am Chris Davison, the Police Officer who is in charge of Mini-Police across all of Lincolnshire, and I just wanted to let you know proud of you I am of everything you are doing to help keep yourself and the ones you love safe and happy during this very strange time

I know that all of our Police Officers and Police Community Safety Officers are thinking of you and hoping you are healthy and happy and are looking forward to seeing you in your Mini Police uniform at school again very soon. I know it is hard not seeing everyone from your family and friends you would normally meet and play with but I know that as a Lincolnshire Mini Police Officer I can count on you to keep smiling and be helpful to those around you to while the rules around social distancing are in place.

I know it's particularly hard if you have had your Birthday during this time and other celebrations may have felt a little different too but in tough times Police Officers pull together to support each other. We call it the police family and you are part of our police family so we will all get through this together.

There are so many people working hard in our community to keep us all healthy, fed and safe that you may have family members who are doing some of this essential work. If you have I would like you to pass on my thanks to them on behalf of all at Lincolnshire Police.

I think you are being really brave and strong and I am very proud to have you as a Lincolnshire Mini Police Officer. We all look forward to seeing you soon and thank you for being part of our police family.
